

Design Approval Document

Date: [October 10, 2025]

1. Project Information

- **Project Name:**[VedaStructure]
 - **Our Task :** Puja Section
 - **Prepared By:** [Group B : Harsh Pratap Singh , Diksha , Arpit Pandey]
-

2. Objective

The purpose of this document is to formally present the final designs for the **"Puja"** sections of the platform, based on our recent discussions and the provided prototype. Your approval on this document will confirm that the designs meet your requirements and will serve as the basis for the development phase.

3. Scope of This Document

This document covers the design approval for the following pages and sections as visually represented in the prototype URL: <https://deluxe-conkies-d3d1f1.netlify.app/>

- Puja Main Page (Hero Section, Filter/Category Section, Upcoming Pujas, Reviews)
- Puja Card Design
- Category Landing Pages (e.g., "Puja in Kashi")

Out of Scope: The design for the **"Booking Details Page"** (the page that opens after clicking "Book Now") is considered **previously approved** by the client and is not part of this specific review.

4. Design Specifications & Visuals

4.1. Puja Hero Section

This is the main banner section at the top of the Puja page, designed to attract the user's attention.

- **Status:** Done and implemented as shown below.

4.2. Puja Listing & Filter Category Section

This section allows users to view all available pujas and filter them by category.

- **Layout:** A two-column layout.

- **Left Sidebar:** Contains navigation links that act as filters for different Puja categories (e.g., "Puja in Kashi," "Nitya Ati Rudrabhishek").
- **Right Content Area:** Displays all available Pujas in a card-based grid.
- **Initial View:** A grid of **8 Puja cards** is displayed by default, arranged in **2 rows of 4 cards** each.
- **Functionality:** An "**Explore All Pujas**" button is placed below the grid to allow users to view the remaining pujas.

4.3. Upcoming Puja Section

This section is dedicated to highlighting future pujas to encourage early participation.

- **Layout:** A single row displaying **3 Puja cards**.
- **Distinct Feature:** The call-to-action button on these cards is labeled "**Participate Now**".

4.4. Standard Puja Card Design

This is the design for individual cards in the main "Puja Listing Section."

- **Components:**
 - **Image:** A representative image of the puja.
 - **Description:** A short title and description of the puja.
 - **Price:** The cost of the puja service.
 - **Button:** A call-to-action button labeled "**Book Now**".

4.5. Category Landing Pages

Each link in the filter sidebar (Section 4.2) will navigate to its own dedicated landing page, which will feature pujas belonging only to that category. The design and layout will be consistent with the main Puja page. Example pages include:

- Puja in Kashi
- Nitya Ati Rudrabhishek

4.6. Customer Review Section

A section dedicated to displaying customer testimonials and reviews to build trust.
